

AMBASSADOR PROGRAM

ABOUT

The DNA Ambassador Program is designed to recognize and reward our most enthusiastic and engaged users who are passionate about sharing their experiences with others.

As an Ambassador, you'll enjoy **exclusive perks** such as early access to new minor product releases of core features before they hit the market.

You will also receive **special discounts** on future purchases of bundles and invitations to **VIP events** reserved solely for Ambassadors. You will get **insider information** about upcoming product features, **beta testing** opportunities & sneak peeks at upcoming launches.

Early Access

Gain access to exclusive features, early product releases, and sneak peeks into upcoming developments. As an Ambassador, you'll enjoy perks such as exclusive discounts on bundles for future purchases and limited edition minor releases.

Insider information

Stay in the know with insider updates on upcoming features, product development insights. As an Ambassador you'll be among the first to test and provide feedback, helping shape the future of our DNA product.

Collaborative Spirit

Together, we can shape the future of DNA by Robot ICT. Share your experiences, exchange ideas to shape the influence on the product roadmap.

Training & Support

Receive specialized training sessions, resources, and support to enhance your skills and maximize the value of DNA for your organization.

Community

Connect with fellow ambassadors, ask questions and share your experiences with the DNA platform.

VIP Events

Access to events organised specifically for ambassadors to network, share experiences and meet with the DNA team itself.

CONDITIONS

Active User

You are an active user of DNA with a demonstrated interest in leveraging the platform for infrastructure management and automation.

Engagement

Engage with the DNA community through activities such as sharing insights, participating in discussions, and providing feedback.

Advocacy

Advocate for DNA within your network by sharing your experiences, promoting the platform, and encouraging others to join the community.

Ethical Conduct

Represent DNA with integrity, professionalism, and respect for fellow ambassadors and users.

HOW TO JOIN

The DNA Ambassador Program **automatically** includes the main users of the platform with whom we have been communicating since the implementation of DNA in your company. Other users can be included based on **requests**.

If you are interested in joining the program, please reach us at:

hello@robotict.com

We look forward to having you join us on this exciting journey of innovation & collaboration!
